Greetings From the Principal

Principal Margo Twohig.

Congratulations to the students on their hard work and creativity in producing another successful yearbook for Westview. This one is special because the students involved, are part of a two credit program that has allowed them to expand their learning and expertise in the area of publishing and printing. This year has been a rewarding and successful one for all of us-students, staff and administrators. The involvement of the music students in the inaugural Meeting of the Board in January and the Family of Schools concert at York University in May was certainly one of the many highlights of the scholl year. Our students also distinguished themselves in their academic achievement with 20% of the student body achieving 80% or more in all of their classes. It is a pleasure to work with students who demonstrate a pride in the academic achievement and in their school. The richness of the culrtural diversity of our students and staff, represents much of the global community. The positive attitude and respect for one each other is a model that would be well copied in our larger society. I am extremely proud of Westview and will continue to work with the students to enhance their opportunities for success. Westview is committed to the North York Board's mission, which is, "...to empower every student to learn, to achieve success and to participate responsibly in a pluralistic, global society.

Teacher's Thoughts

Westview's Yearbook Crew, over the past few years, has certainly gained a reputation for itself. this group of students is not known for its erratic sense of humour or even envied for its late night pizza oarties, they are also considered to be among the most creative and hardworking students at Westview. Through this great effort, the yearbook staff of 93 1 is now an official class. They have earned not only one, but two full credits ov the school year. One in English and the other, of course in Art. Working with this group of students has been like no other teaching experience that I have ever had. (Although I have only taught for 5 years, I know this class will be a memorable one.) This class does not start packing their books five minutes before the period is over. In fact, they are always active in some way; before school, developing negatives, scanning layouts, drawing divider pages, writing stories, or just having fun thinking of more ideas. Sometimes I wonder," who is doing the teaching?" I have certainly learned alot from these students. I'd have to say that we all learned alot from eachother. Anitra, you are a tough taskmaster. We always know when the next due date is! Each member of this crew is a talented writer, photographer or artist. Together, you have created a book that truly reflects Westview's diverse cultures and talents. this yearbook not only shows that students can work together, but also the visual arts nad English departments can share their strengths. (As well as their computers.) Thanks to Joy Goodman and Brian Pugh for your incredible support. By "Putting the Pieces Together", this yearbook staff has certainly made learning Visual Arts nad English a very exciting experience. Irene Faiz

Media teacher Irene Faiz, learned more than she expected from teching the second part of the course.

Editor's Last Words

I promise you that this is the last time you'll see me on this page...Honestly, this is the end!

Well, once again we've delivered to you another fine yearbook, the last and final installment of what I dubbed Westview's "Unity Trilogy". This year the students of the Parkbench staff were assembled in a classroom as part of the two-semester, two-credit yearbook publishing/journalism course. You'll notice that inthis year's yearbook, we've emphasised the theme of "Putting the Pieces Together". which in the course, we literally did put pieces together. Names to faces, words to photos, etc.... Not only were we all learning the various aspects of print and corporate publishing, but also photography and how to eat alot of pizza nad use the TTC. I can actually say my work here is done.

I was given the honour of working with some of the most creative, sensitive and intelligent people I have ever met, and can only say that they proved to be an asset to the prodution of this book. Everyone; the new yearbook staff, the veterans and the teachers learned something from eachother. I had the opportunity along with Amphay Sisavang and Vanessa Cornish to be teachers in class. I'm not talking about a one day thing where we were just showing students the techniques or correcting their work. We were handing out assignments, marking papers and creating exams that were assigned according to skill and evaluated by the three senior staff members and then marks were done collectively by Mrs. Goodman, Miss Faiz and myself.

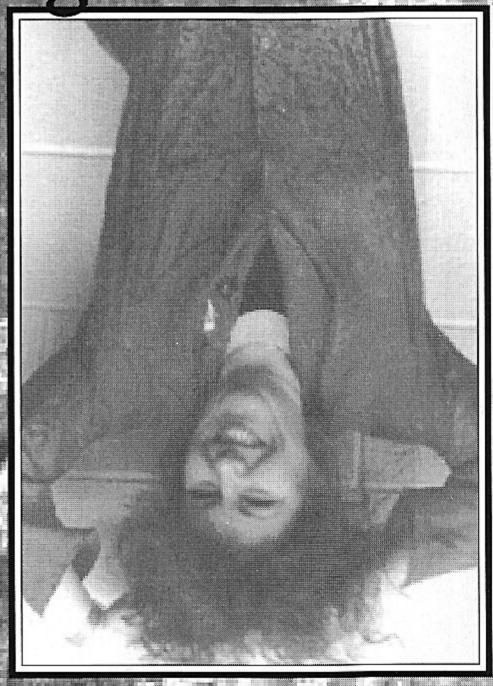

All I can say is I'm glad it's over. Who needs the aggravation, the budget balancing, the deadlines, the pizza parties, the late nights and the sleep overs a t Joy's house! Thanks to Vanessa, Amphay, Sheryl, Joy and Ornella for the three years of chaos. To Ms. Twohig and Mrs. Samuel for stepping in when they did and Mr. Kelly and Mr. Pugh for their technical help and the new staff who willingly absorbed three years worth of information and work in a matter of three months.

Long time Editor-in-chief Anitra Basant, passes the torch to her successor at the end of June '94.

Advisor's Message

Please do not adjust your book, They did this on purpose, something about my looking more natural! Anyway.... This year we tried something new. We ran the yaerbook as a two credit Art and English package, with Miss Faiz delivering the English half. This allowed one of the regular features on tyhis page, Anitra, you know Anitra, "the mouse that roared", anyway she finally got to be editor-in-chief and I finally got to take it easy. If you believe that you're as gullible as a mushroom! We had to do alot more work for this book to try and save money and produce quality at the same time. Staff photographers shot, developed and printed hundreds of feet of film using hundreds of sheets of photo paper. Writers interviewed students and staff and wrote, rewrote, edited and world processed hundreds of words. Staff layed-out, traced, xeroxed, scanned and manipulated hundreds of images, and everyone ID'ed, alphabetized, organized, scanned, adjusted, layed-out and input hundreds of grad, undergraduate and staff mugs. It was really a great year. Everyone learned to work together and held together from star to finish in spite of countless, (thought I was going to say hundreds, didn't you?), setbacks and frustrations. To the whole crew, Anitra, Vanessa, Edwin, Sheryl, Sokun, Amphay, Corrie, Julie, Jay, Jeff, Betty, Jean-Antoine, Rickie, Kevin, Chrissy and of course Irene and Ornella, I know it was worth it and I hope you do too!

PROM NIGHT '93

Prom night '93 was a sight to behold. Students and teachers were transformed from everyday people to stunningly beautiful ladies and handsome gentleman. The event appropriately themed "Forever Young", took place on the Empress of Canada cruise ship on the balmy evening of June 10, 1993.

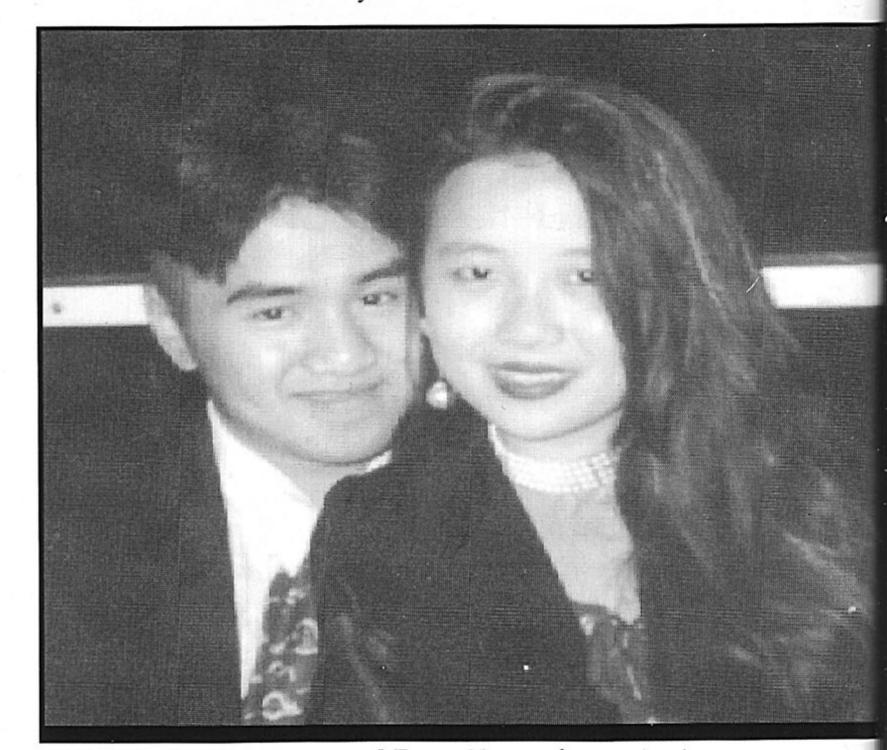

Approximately two hundred staff and students attended the formal, dressed for a night of good music, food and excitement. Ladies were done up from head to toe, after having spent the better part of their day in a hair salon praying for the perfect do. The guys shed their baggy streetclothes in favour of a crisp dress shirt, tailored pants and a sport jacket. Teachers left the keys and books at home for a relaxing night with the graduating class. As they look upon the cool waters of lake Ontario and for one night breathe a sigh

of relief that their students have come this far and can only go further. The students gather with friends for a night of laughs and dance. Carefree and reckless, invincible on tonight of all nights. The members of the prom committee still have their work cut out for them. They must ensure that all goes well, that everyone is having a good time, their all fed and that the boat doesn't sink. One of the most funny moments of the night was the unfortunate couple who missed the boat and had to take a boat taxi out to the cruise ship. The disc jockey was none the worse for ware, as he was constantly approached by students with requests for songs, so much was he haggled by the partygoers that he broke out into a disco frenzy with tunes

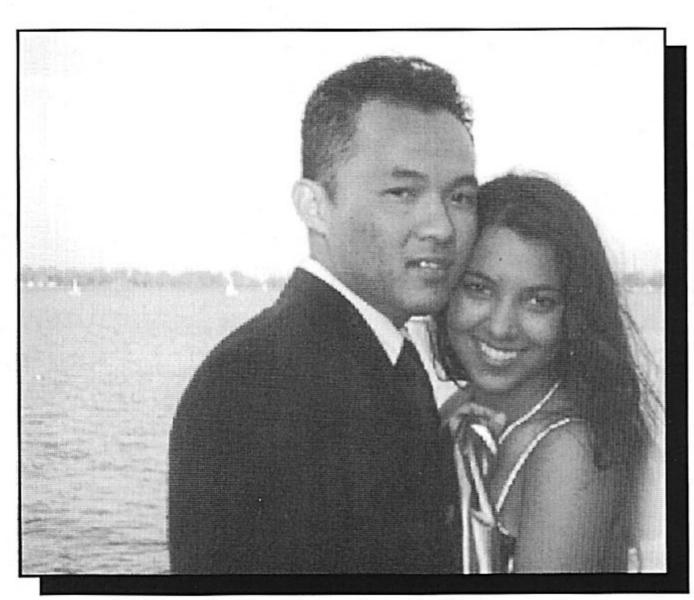

from the seventies. The teachers were obviously happy and students were surprised as they saw these straight laced staff members out on the dance floor. As the evening continued the atmosphere took a more intimate tone as the music became softeand the air cooler. Couples moved to-

wards the bar for coffee and cake as they prepare for the close of the evening's events. Midnight; the dying notes of the last song fade as the ship docks at the harbour and the class of 1993, gather for their last goodbyes of an evening that will remain "Forever Young"

COMMENCEMENT 1993

Good evening distinguished guests, teachers, family and friends of my fellow graduates. On behalf of the graduating class of 1993, it is my pleasure to wlecome you to Westvie's twenty-fifth annual commencement. It is difficult to express with words what I'm sure all of us must be feeling right now. How many of us, imagined ourselves sitting here, on this very night, when we first embarked on our highschool careers? During our first year of highschool, our minds werefar too preoccupied with other things, such as whether or not we would be able to adapt to the many changesin our lives. Now that we are here and the qualms of our future are again surfacing in our minds, we should give ourselves an opportunity to reflect before we move on with the next chapter in our lives. Westview is a place that will forever hold many memories for us; some

not so pleasant, some very pleasant and some hysterically funny. We all have our own personal favourites; those occurences that others found bewildering, but which, upon recollection, will forever bring smiles to our faces. I need not have to ask how many of us recall having to go outside during a bitter cold winter at the sound of the fire alarm. I do not think I have pitied anyone as much as I pitied those poor souls who did not have their winter coats with them.

However, all of us realize that Westview is more than just a place where we might find out what careers are suitable for our own strenghts and weaknesses. It is a place where we have developed into the people we are today. It is a palce where we not only learned arithmetic or how to hit a volleyball, but about life. We had incredible highs and

Class valedictorian Yasar Razvi

unsurmountable lows; days where we felt we could conquer the world and days when we felt it was coming apart. We should cherish these as being positive experiences because the only true bad experience is one

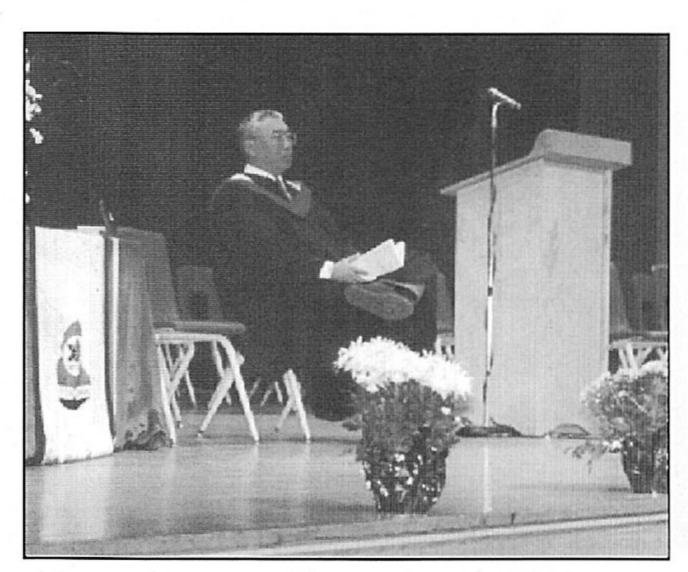

that you cannot learn from.

The diplomas that we receive tonight are a memntoe of our many high school experiences as they are a testament to the amount of effort we have expended. Yet, we owe much of our intellectual and spiritual growth to our teachers. They are there whenever we need help in our studies; always willing to impart upon us some of their wisdom and are always there when we just need someone to talk to. No piece of paper could ever express the impact that they have had on our lives. My fellow graduates, the groundwork has been laid. We should draw on what we have gained at Westview as a source of inspiration for our future endeavours. In times of

uncertainty, we should look back a what we have accordished, to help us realize that virtual nothing is beyond our grasp.

Westview is a pla we come to day in and day out, meet friends, hanging and working hard all the while unst of our purpose. A we move on, we must be prepared to struggle with yourselves and w the many challen that we will be pr sented. Tonight, should reflect on our accomplishme that have been a prelude to this occ sion, because whi our direction is no yet defined, our hard work has pa

as our futures are now just a little m visible.

Master of ceremonies Stan Isoki awaits the his audience.

THE SILVER CLASS

The air tonight is brisk abd charged with the energies of the nervous and excited. The anticipation indoors is stifling as teachers and students alike, prepare for Westview's twenty-fifth commencement ceremonies.

Teachers and administrators

Frazier shares a smile with principal Twohig.

m

mingle and laugh as they are robed for the processional. All the whilethey worry,...will all go well tonight?...are parents and guests being looked after ?...will I pronounce the names right?

On the other side of the school, students are experiencing a bittersweet reunion of friendships formed long ago. As they reminisce, they wonder if these bonds of youth will last after tonight, after they have parted, each on his or her own path to the future. Looking over the sea of smiling, nervous faces, you could see class valedictorian Yasar Razvi nervously moving from one foot to the other, hands constantly searching for something to do. His mind reeling from a week of university midterms and the speech he will give tonight. The tesitimonial on behalf of the class of nineteen hundred and ninety-three.

The clock is quickly approaching the evening hour of seven. Students and staff are lined up for their entrance. the crowd in the auditorium rises as the train of educators and their graduates make their way down the aisle.

Parents look on proudly as their sons and daughters are seated among the graduates. For many families their child will be the first to graduate grom high school in

Canada, for other families it is the continuation of a family tradition.

For the next hour and a half, parents, siblings, teachers and students will reflect on past events leading up to tonight, as they watch their children, siblings, students and friends receive awards, praise and finalyy their high school diploma.

At the conclusion fo the awards ceremony, everyone is invited to the back of the auditorium for an informal reception. An array of multi-ethnic sweets have been selected for tonights guests. Soft lush floral arrangements add warmth and airs of familiarity and home for many parents and caregivers.

Commencemtne is an ending and a beginning which transcends time, place, race and religion. It is the begining of a journey for the silver class of ninety-three as they leave their carefree youth to enter the adult world, ready to change it for the better.

Commencement knows no boundaries, it disregards all that plagues humanity and unites in our celebration of eachothers achivements

If the world could've seen Westview tonight, it would have received a true picture of this school and its people.

Friend or Foe?

Let's not even beat around the bush--we all know what kind of reputation Westview has. We are, supposedly, a very violent, dangerous, drug-using, racially tense school. If you're reading this, I think you know the difference between that perception and the truth. Of course Westview has it's problems. Who doesn't? Comparatively, we are no worse than any other Metro school,

readily condemned by those not willing to take the time to research their facts. We must increase our efforts to educate outsiders about the benefits of our school. First, we have to dispel the myths. A visitor touring Westview during lunch hour will see a rather typical, calm--if a little loud--gathering of dining students.

yet we have been

The halls are relatively empty. There is no screaming, shouting, shooting, or stabbing. A trip through the school during class time does not reveal gang activity, illegal dealings, and mobs

the occasional wanderer or "late" victim. And not only are we average, but Westview has numerous programs, activities, and courses available to students that are not readily available

elsewhere. These

Positive Peer Culture, Urban Education, and Folk Art and Cultural Studies. We are also We also hold one of the few schools in North York to allow students access to Internet--an invaluable tool for reasearch, entertainment, and communications in computers.

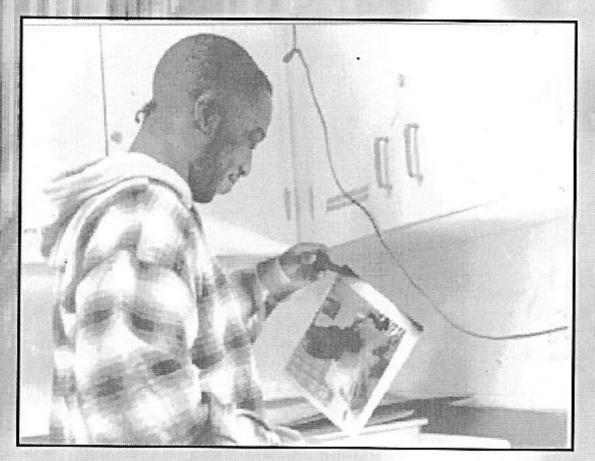

Westview is also a school that avidly promotes anti-racism and multiculturalism, This, of, course is due to our extreme ethnic diversity. As a reflection of this, our art students have

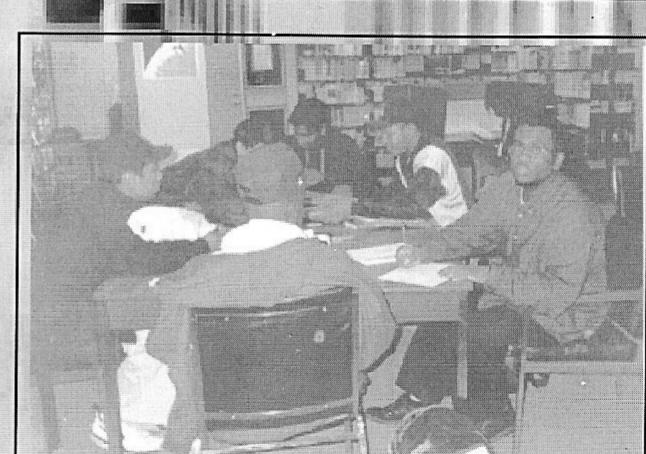

painted a series of murals which mirror the positive aspects of various societies. numerous cultural events, activities, and celebrations throughout the school year for students to be involved in. Our existence should be celebrated, not

condemned. If you bought this book, you should know what I'm talking about. It's obvious, that Westview is not such a bad place to learn, in fact, it's been classified by many as the best in Metro. Friend or foe? Definitely friend.

Arts in Westview

Do the students of Westview realize how talented they are? Westview has long been known for its achievements in music, drama and visual arts.

We walk up and down the halls of Westview and see murals on the walls. What goes through our minds as we view them? How hard did the artist work? How much time went into their production? What do we really think?

What does the artist imagine before rendering a painting or a drawing? Art is a universal expression of emotions - the feelings of love, hate, pleasure or pain. This kind of expression impacts upon the students here at Westview.

Drama uses the vehicle of the artists themselves to express feelings, thoughts and especially fantasy. The opportunity to be anything you want to be is the main attraction of drama.

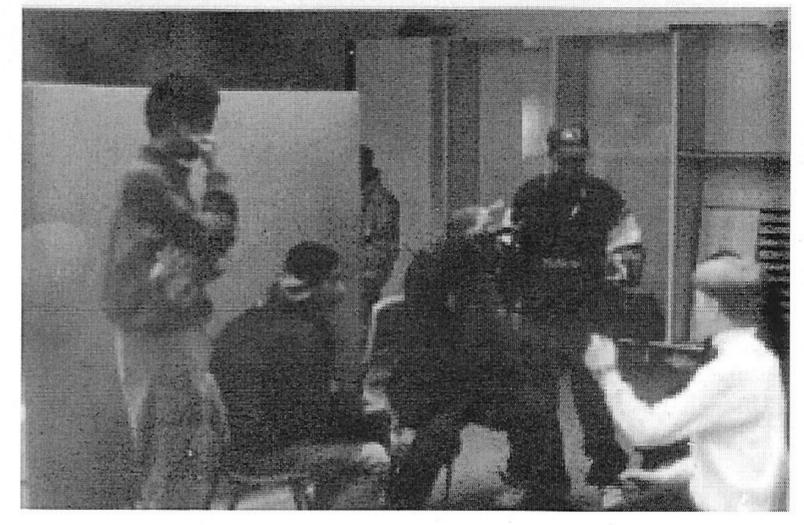

The sounds of music are one of life's most beautiful forms of expression. To create music is one of humanity's greatest accomplishments. Everyone in the world enjoys some type of music.

Westview challenges you to experience new horizons and if you believe in the arts and yourself, anything is possible.

Just Hangin' Oi

Westview is a school full of dedicated students, who work hard throughout the day. However, even we need time to relax and kick back once in a while. So when we get a chance to rest between our hectic school day, we seize the opportunity. For every student, there is a place where they choose to "hang out". A place where they gather with friends and just 'kick it' The main spot, where Westview students hang out is the school cafeteria. During the lunch hour, hundreds of students can be seen getting together to hang out or simply grab a bite to eat. The cafeteria is always the place you go to catch up with people, however, it isn't the only place. Believe it or not, our library is a place students also choose to gather as well as our school's Science lab which is home to some of our most famous card game confrontations. Students can also be seen relaxing or just gearing up for a big test here. During the warm weather, we can be seen lounging outside or taking a leisurely stroll around the school, enjoying the warmth of the sun. When it's cold out, many can be seen roaming the halls, bumping into friends and just having fun. Not to mention the art room, where us yearbook people lock ourselves up to churn out pages of this year's edition for you to buy. I mean, you did buy your own copy, didn't you? You're not reading this from someone else's copy? My GOD you're Cheap? Go check out the cafe, see what they're up to. Just relax and hang out for a while before it's

What many people often fail to see in Westview is its true surrounding beauty.

You may think I've gone crazy, but really, have you ever stopped and looked at the school and its architecture?

There is so much to see on the inside as well as the outside of the school itself.

Let me tell you about what makes Westview an attractive building indoors and outdoors.

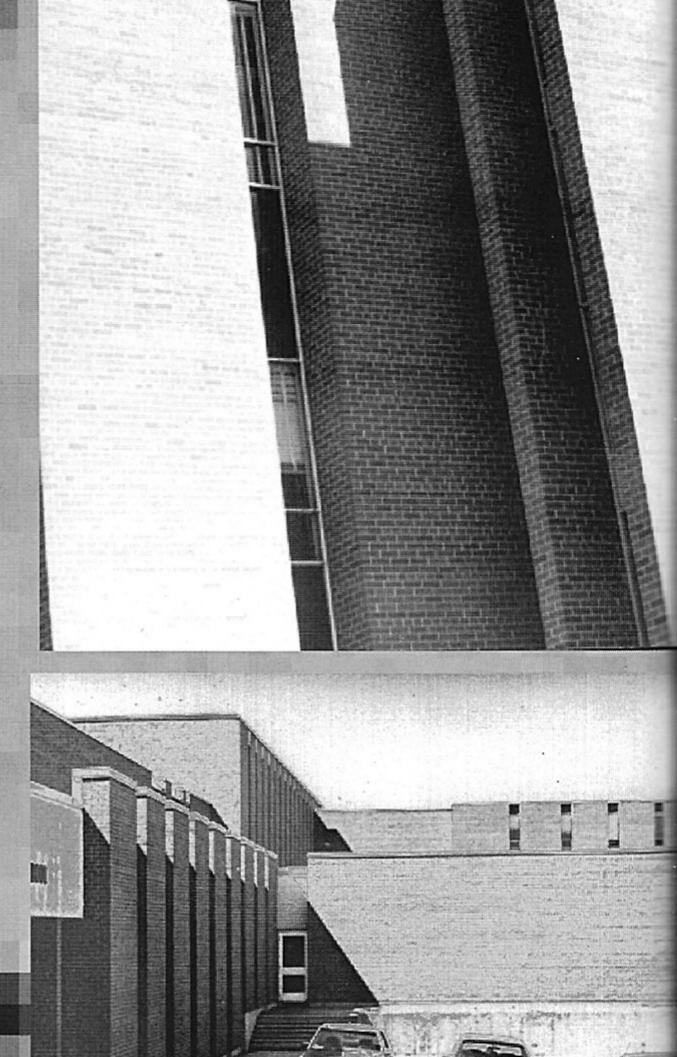

If you look around the entire building, you'll see many pillar like structures that make Westview look something like a cathedral, but it still has that casual look so you don't feel like you're in church.

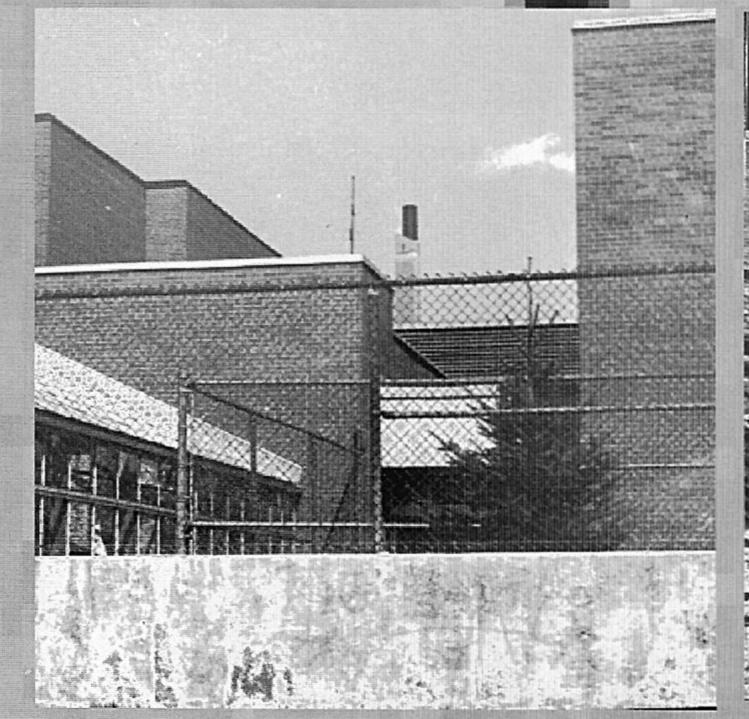

When you go around back, to the pool area you see what may look like an ordinary parking lot, but when you stand on top of the football field and look down on that regular lot was see a breath taking cave of stone, that gives it that almost men val appearance.

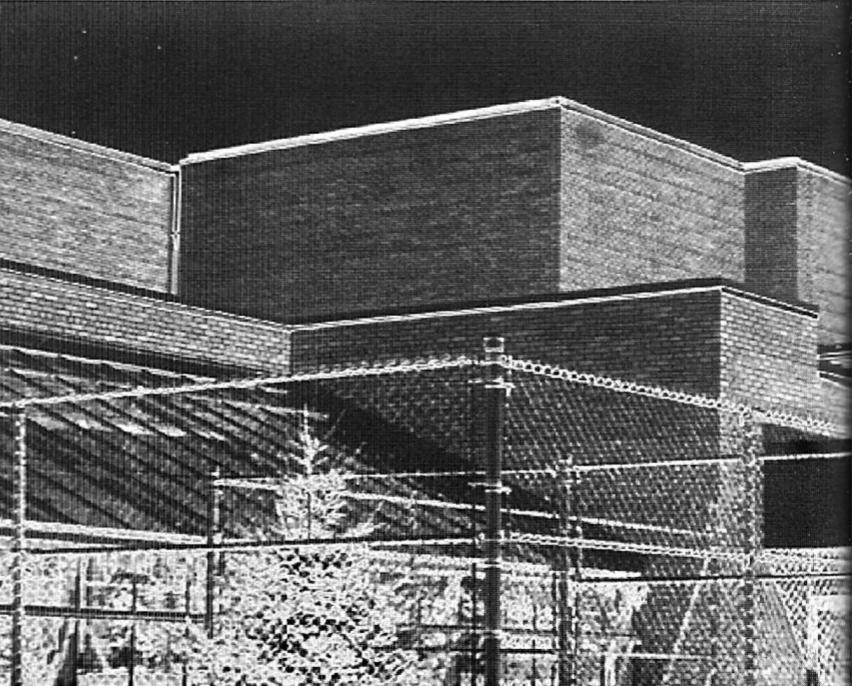

The inside of the school is quite different. Almost very room in the school has a window that will always give you a view of the outside world while working in classes. If you don't have a direct view to the football field or the road, you get a stunning visual of the courtyard, which in the spring is full of flowed blossoms on the trees.

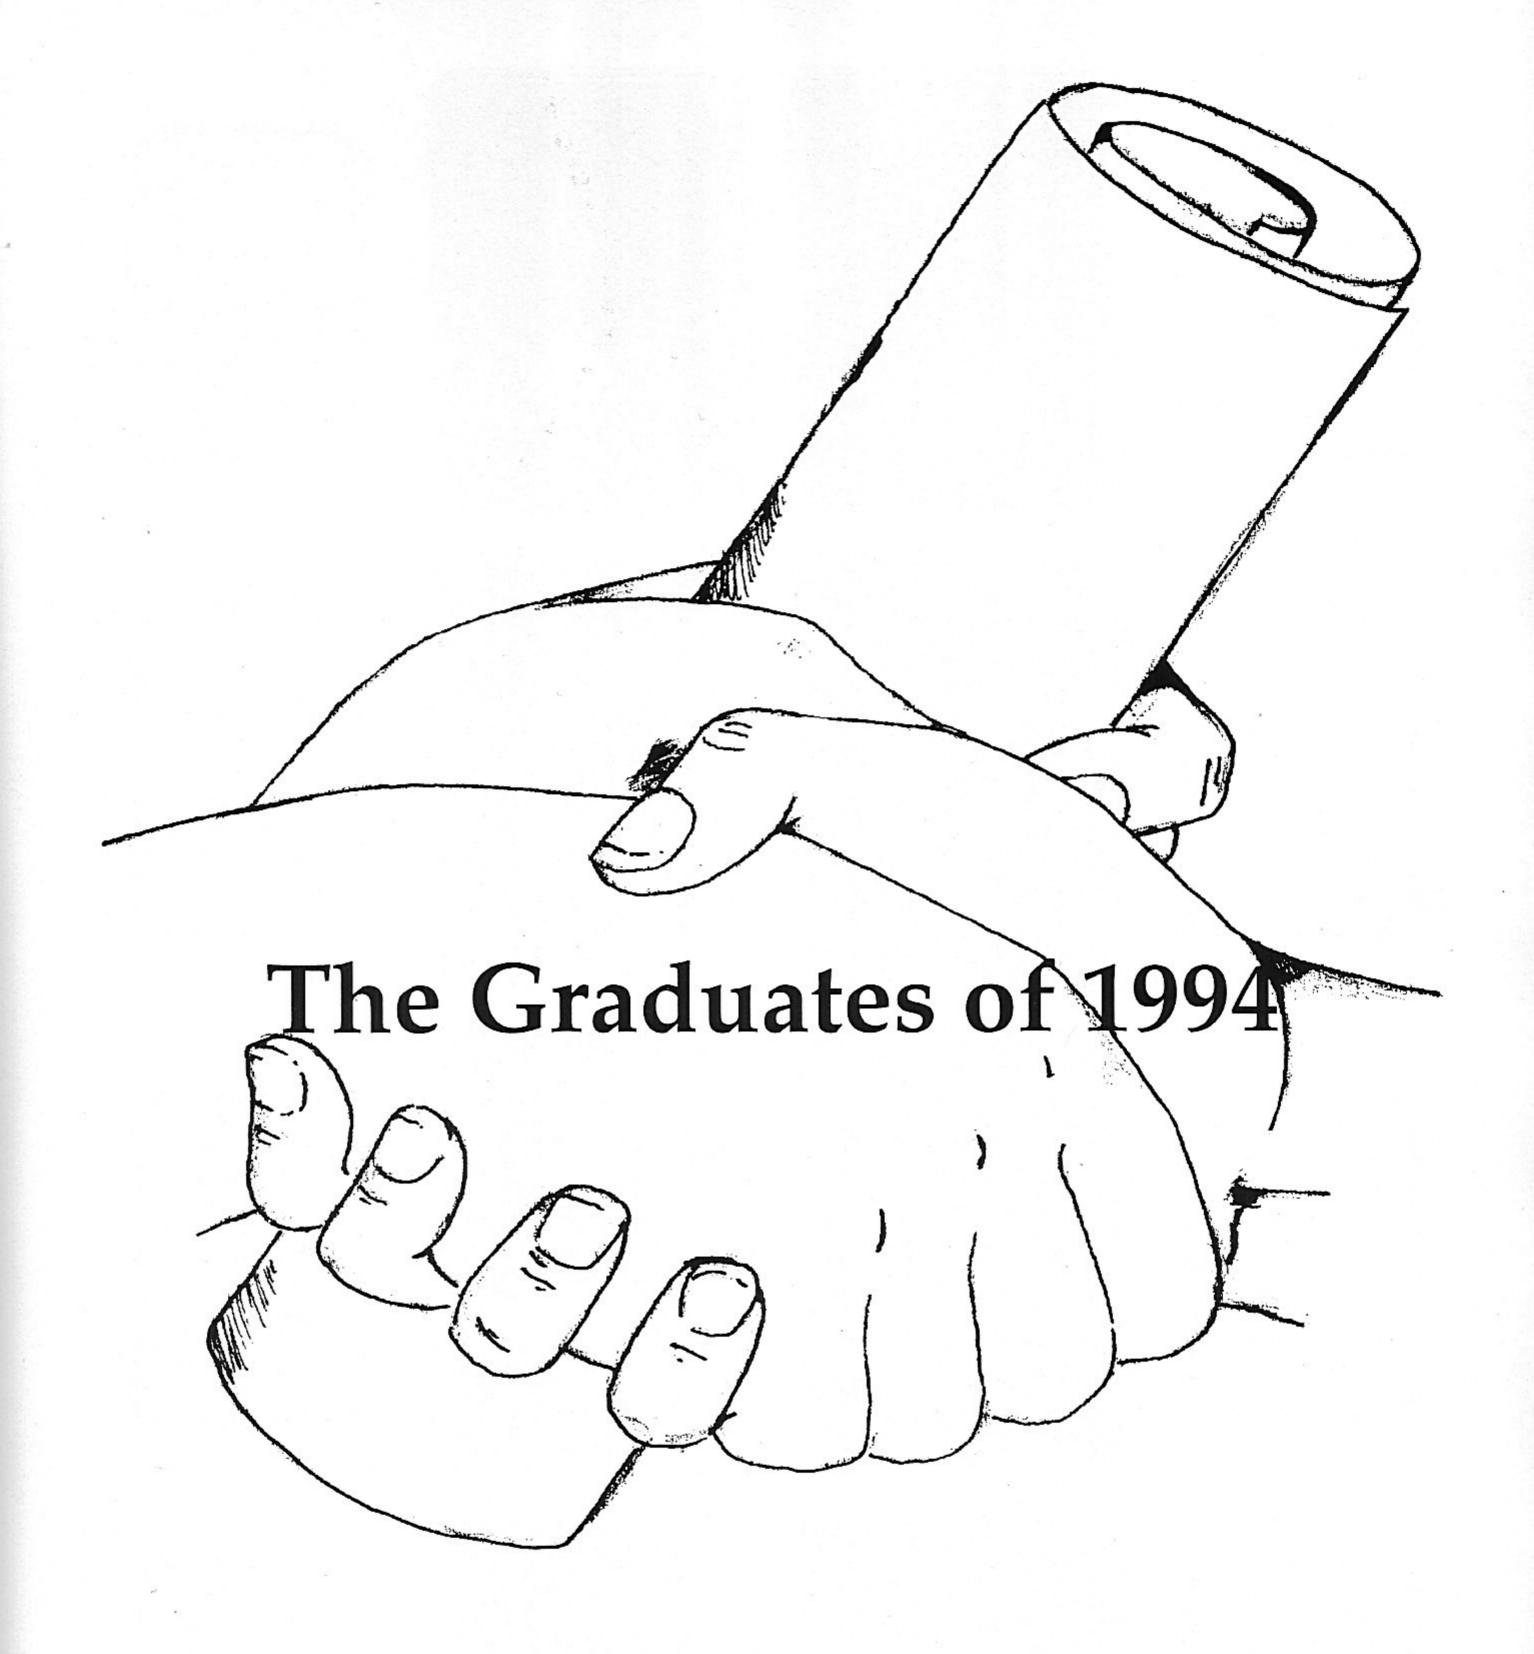

Whether you're on the interior or the exterior of the there is much more to see than bricks and cement or tiles and steel rails. There's the beauty of a building that was envisioned by a creative architect.

Life Of A Caretaker

"Don't bother, <u>they'll</u> clean it up!"
"Oh, who cares! It's their job anyway!"

If you haven't already figured it out yet, the above statements are directed toward the caretakers here at Westview. Some days they are faced with the 'piteous' stares of some ignorant students and teachers; others, the battle against those who take them for granted. Now it is typical for people, especially teenagers, to take certaing things for granted, butpeople, regardless of race, gender, status, job/career orientation, should not be included in that bracket.

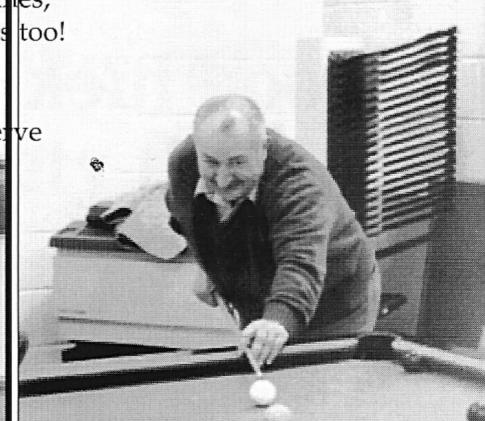

'Caretaker'- person in charge of premises. Not 'person who walks behind you with a dustbin' or 'garbage picker-upper'. Their job is simply to keep Westview that 'better place to be'. So don't put them down. Hey, it's better than sitting in a room full of garbage. Here's another tidbit of information. Caretakers also have something we have--A LIFE!!! It's not just 'sweep, paint, fix, plunge, sweep'. No! They can play pool just as well or even better than you, they do listen to music, they read magazines, they have heard of and been to the mall, the movies, the game, and they play sports too! They even have girlfriends, boyfriends, wives, husbands, friends. (Who knew?!)

So the next time you have that sudden urge to drop that piece of garbage, assuming that it's <u>their</u> job, remember that caretakers are people too, and they deserve the same respect you would want for yourself. But if after reading this artice, you still believe that caretakers are nothing but walking dustpans, my only advice to you is--GET A LIFE! (Already they're a step ahead of you!)

Flying Wildcats Basketball! Basketball! Basketball! Girls! Girls! Girls! Great! Great! Great!

Yeah, this years Varsity girls Basketball team had their best season yet! Losin g only two games in league play and one in the the playoff placing our lady Wildcats third in NorthYork.

In their semi-final, all the members gave their best efforts to the game, while in the process of giving Bathurst Heights a run for their money. They remained tied well into the match. With two minutes left in the game, Bathurst had to call a time out to catch their breath from the exciting and tough performance being exhibited by our basketball players on the court.

Unfortunately, like all good things, that must come to an end, Bathurst in the last minute of play manged to make a comeback with a three-

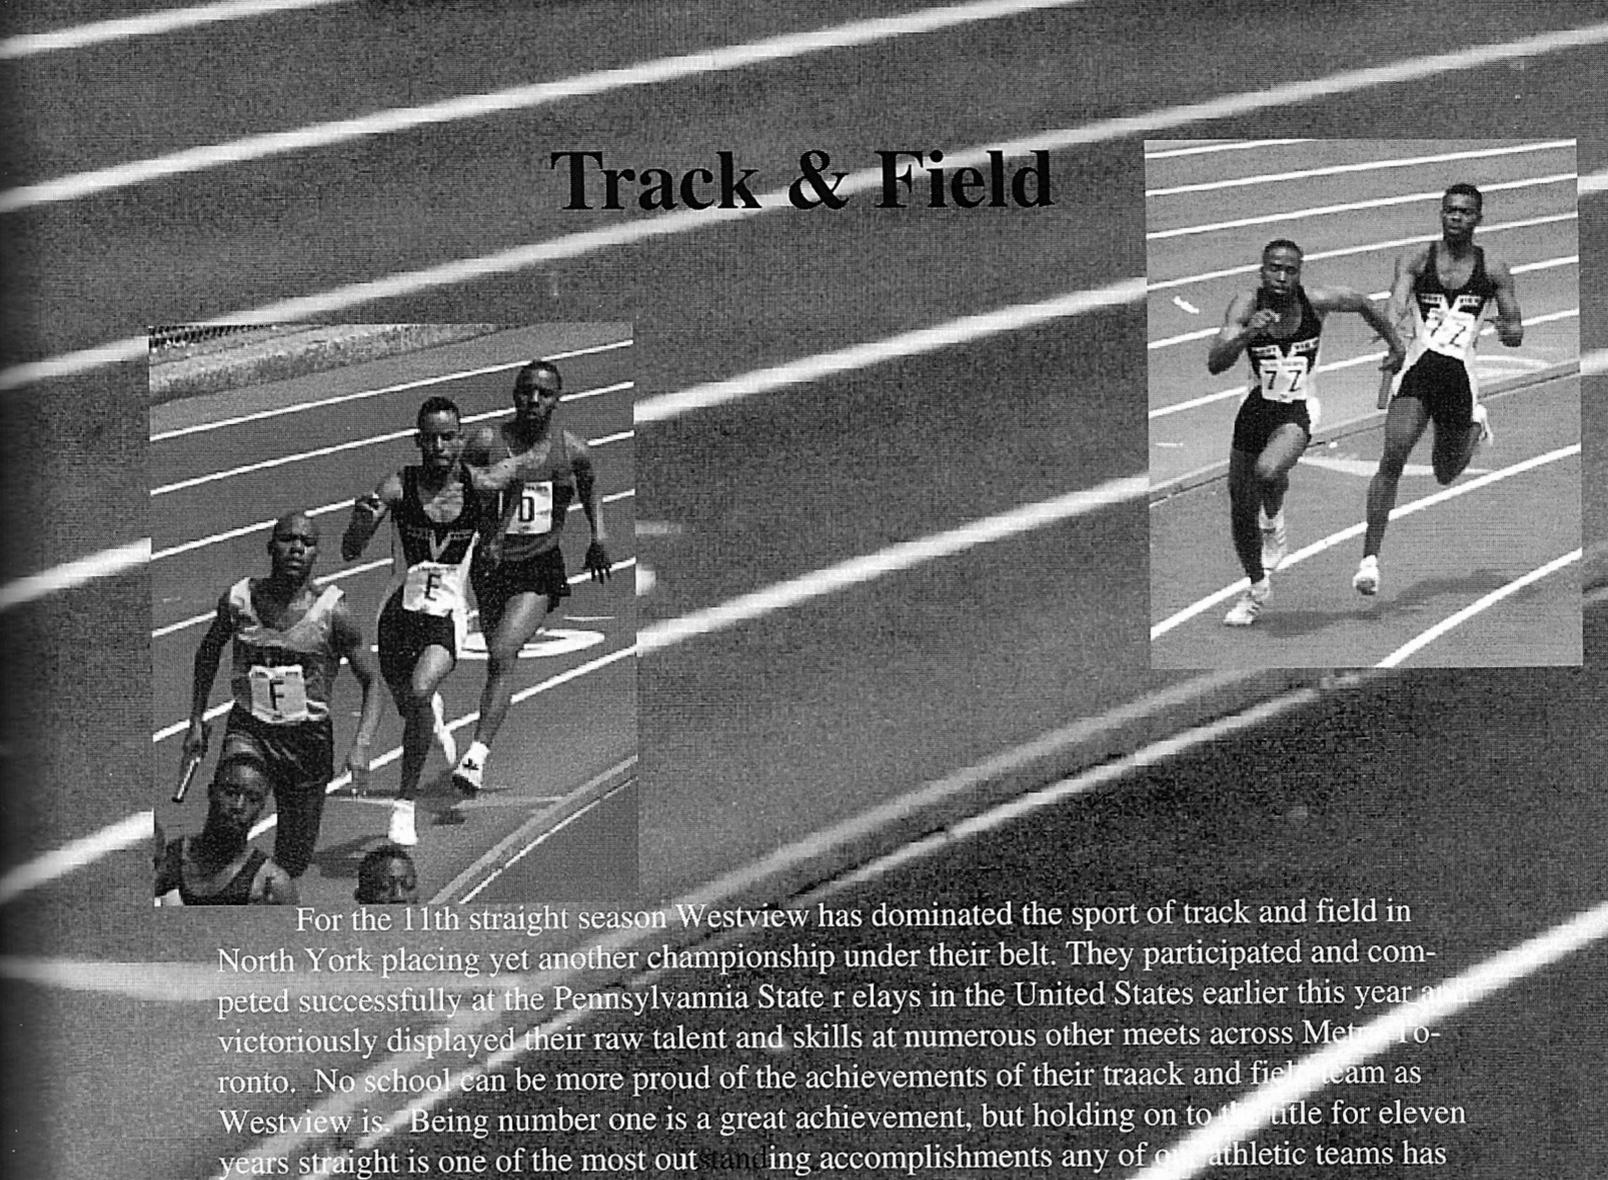

point shot, winning the place to compete in the finals. Through all their hardwork, efforts, grace, and determination on and off the court, Westview's Varsity Girls Basketball team, through the guidance of their coaches and eachother went further

than they could've imagined. Look out next year as many of these stars will be returning in

years straight is one of the most out standing accomplishments any of or athletic teams has ever made since 1968. Congratulations to all the track and field term members past and present. You have all been a part of the success of this team of mampions. -Jeffrey Perea

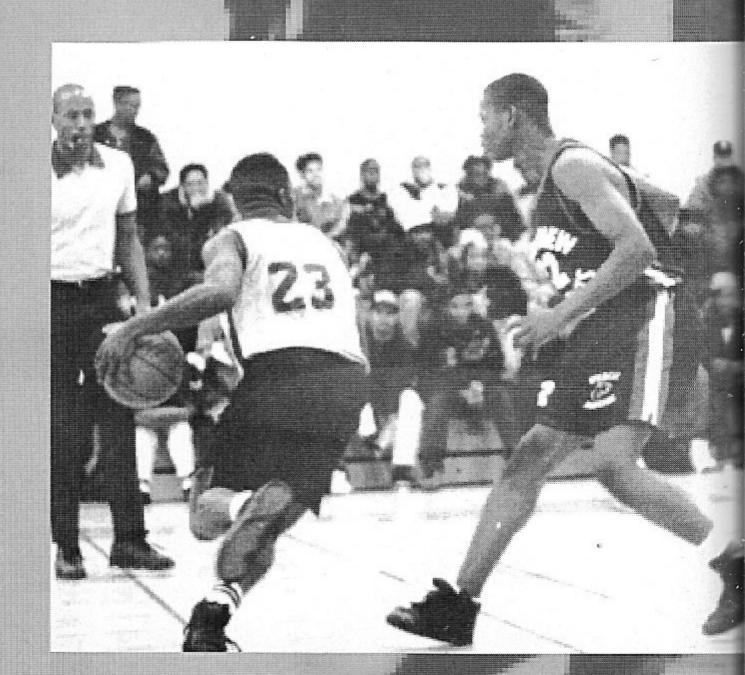

After several months of controversy and league play, the senior boys overcame tremendous odds after being literally black balled acros Metro earlier this year for events that took place at Chinguacousy Park S.S. at the begining of the boys season. Despite the media and the rumours our guys came out on top to place third overall in North York. The Senior Boys Basketball team far exceeded the expectations of many of Westview's public executioners and they can only go further in the next season.

Nineteen ninety three proved to be the most successful season for Westview's Varsity Girls Softball team, since it's first season five years ago.

Our lady wildcats proved that through hardwork, determination and raw ambition Westview can do anything. The girls team under the instruction of coach Chris Wilkins came together quickly to form a strong team unit.

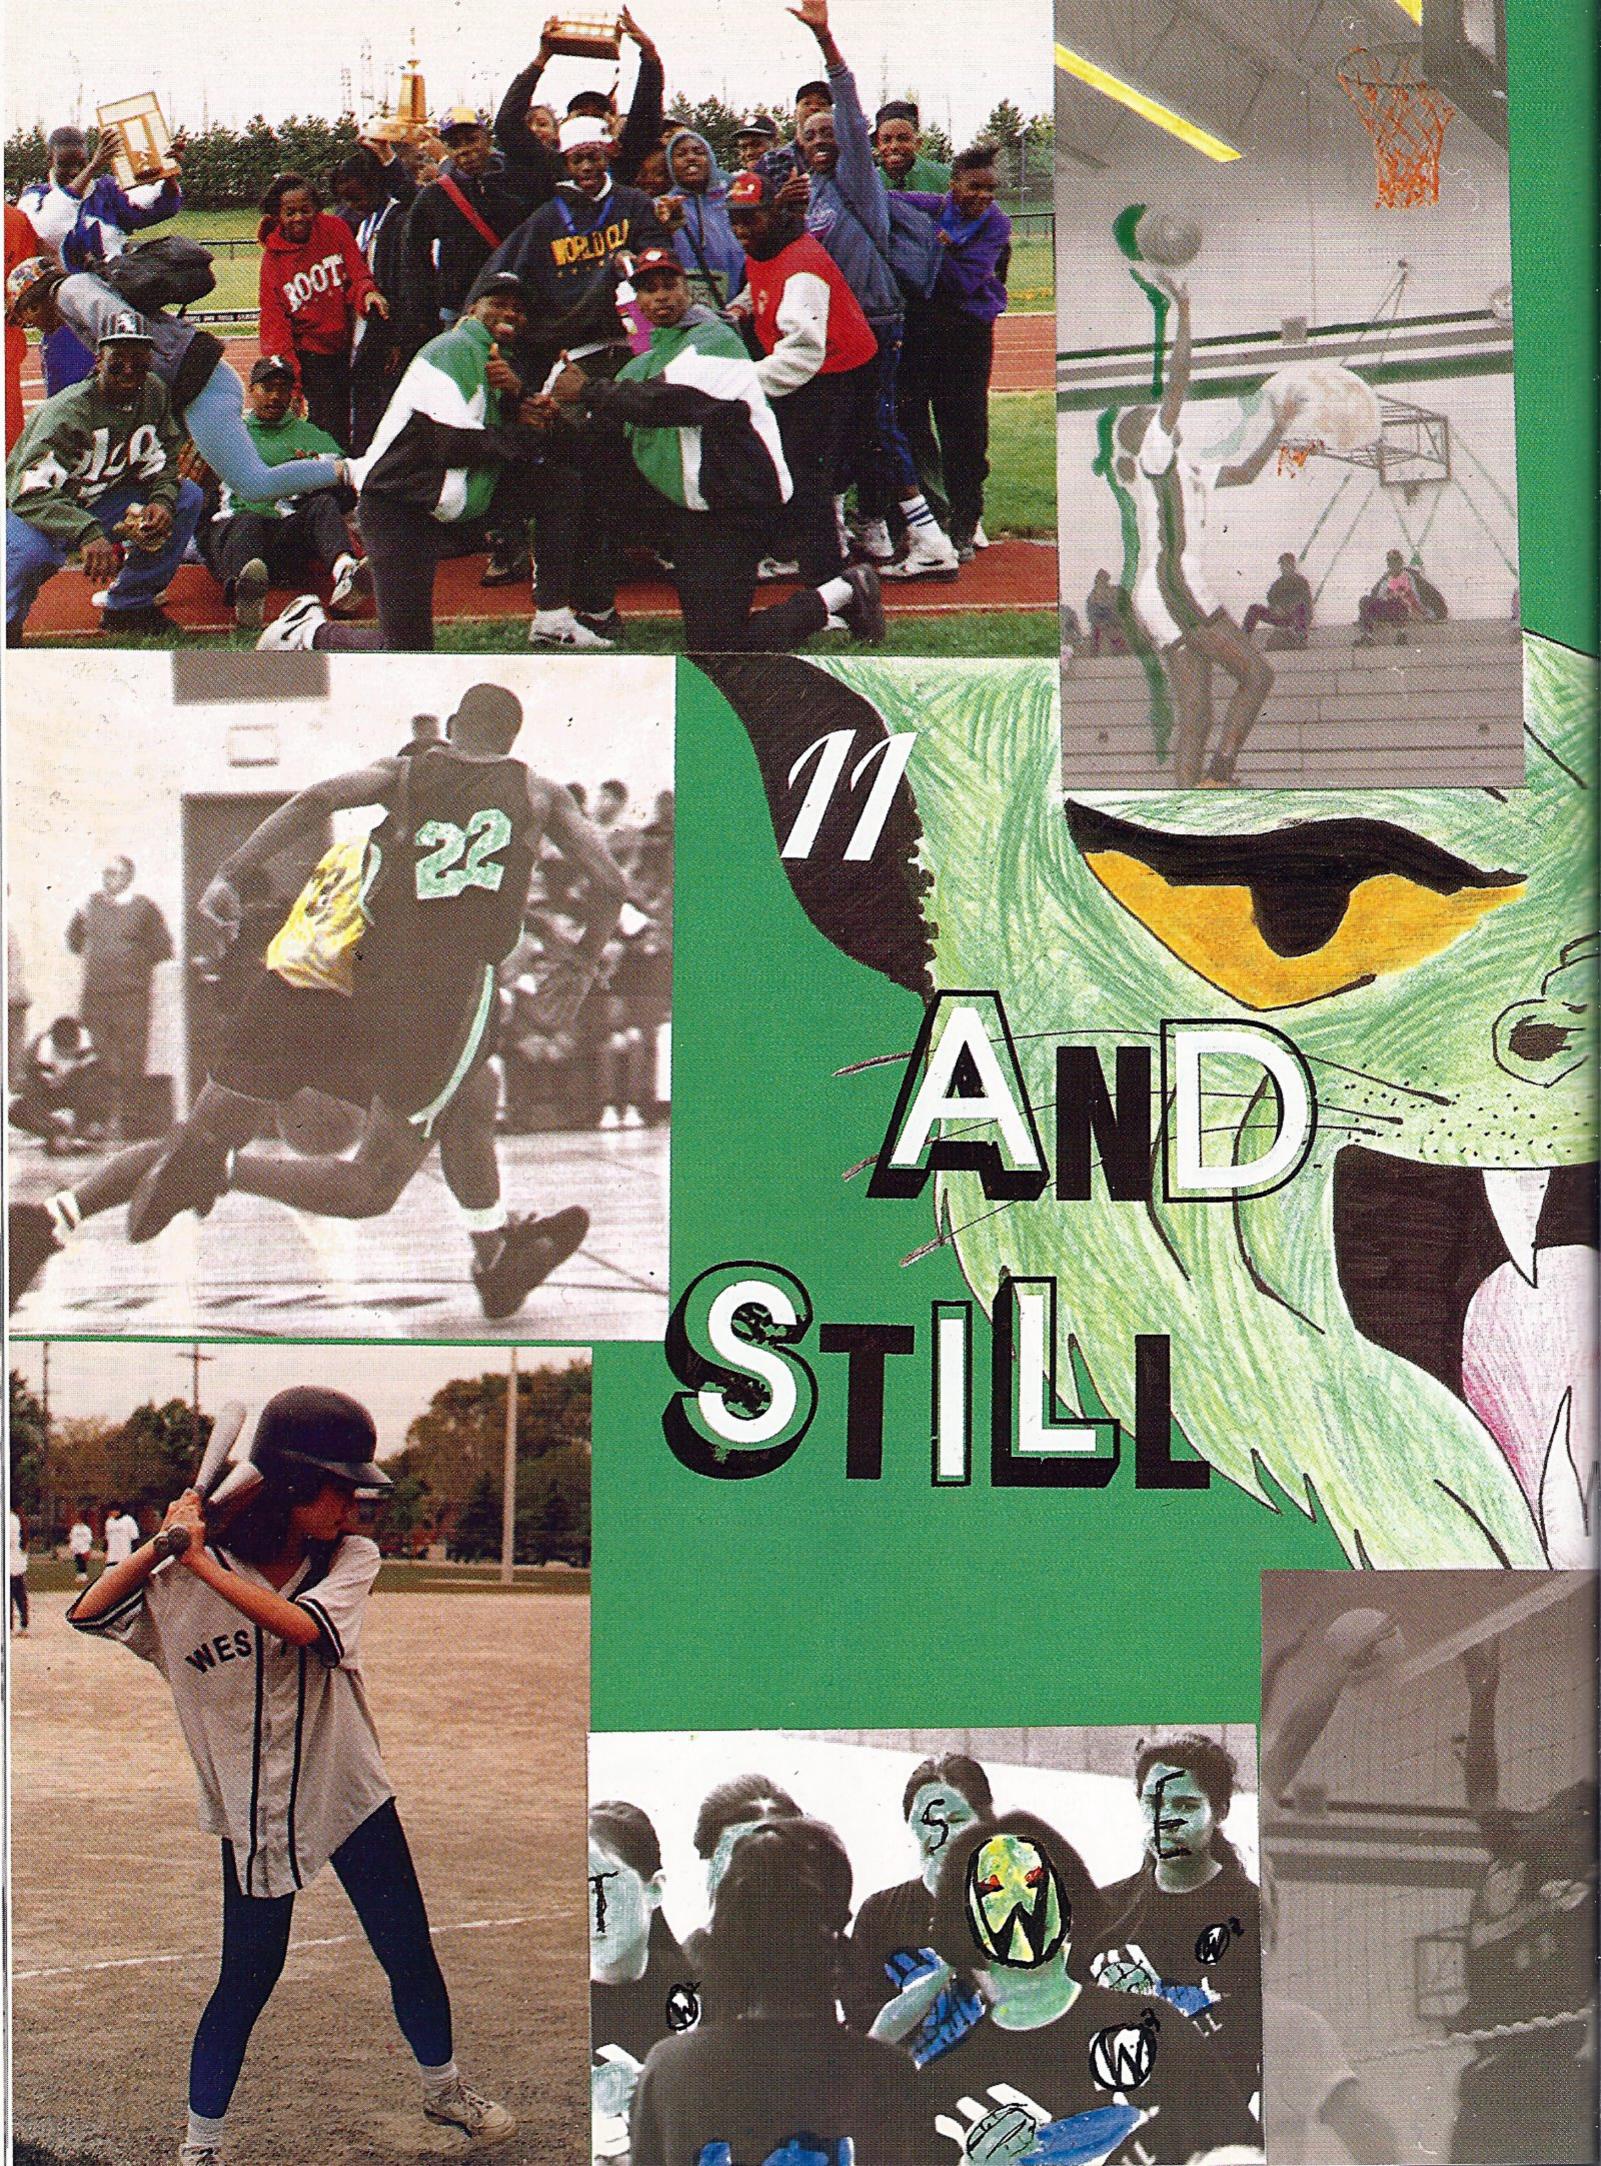

Having had a successful season our girls kept their cool, not allowing a string of good fortune to ruin their chances for the North York title.

In the North York finals, our girls managed to play a solid defence and outstanding offence.
With the pitcher hurling three shutout innings against Boylen to win the city championships.

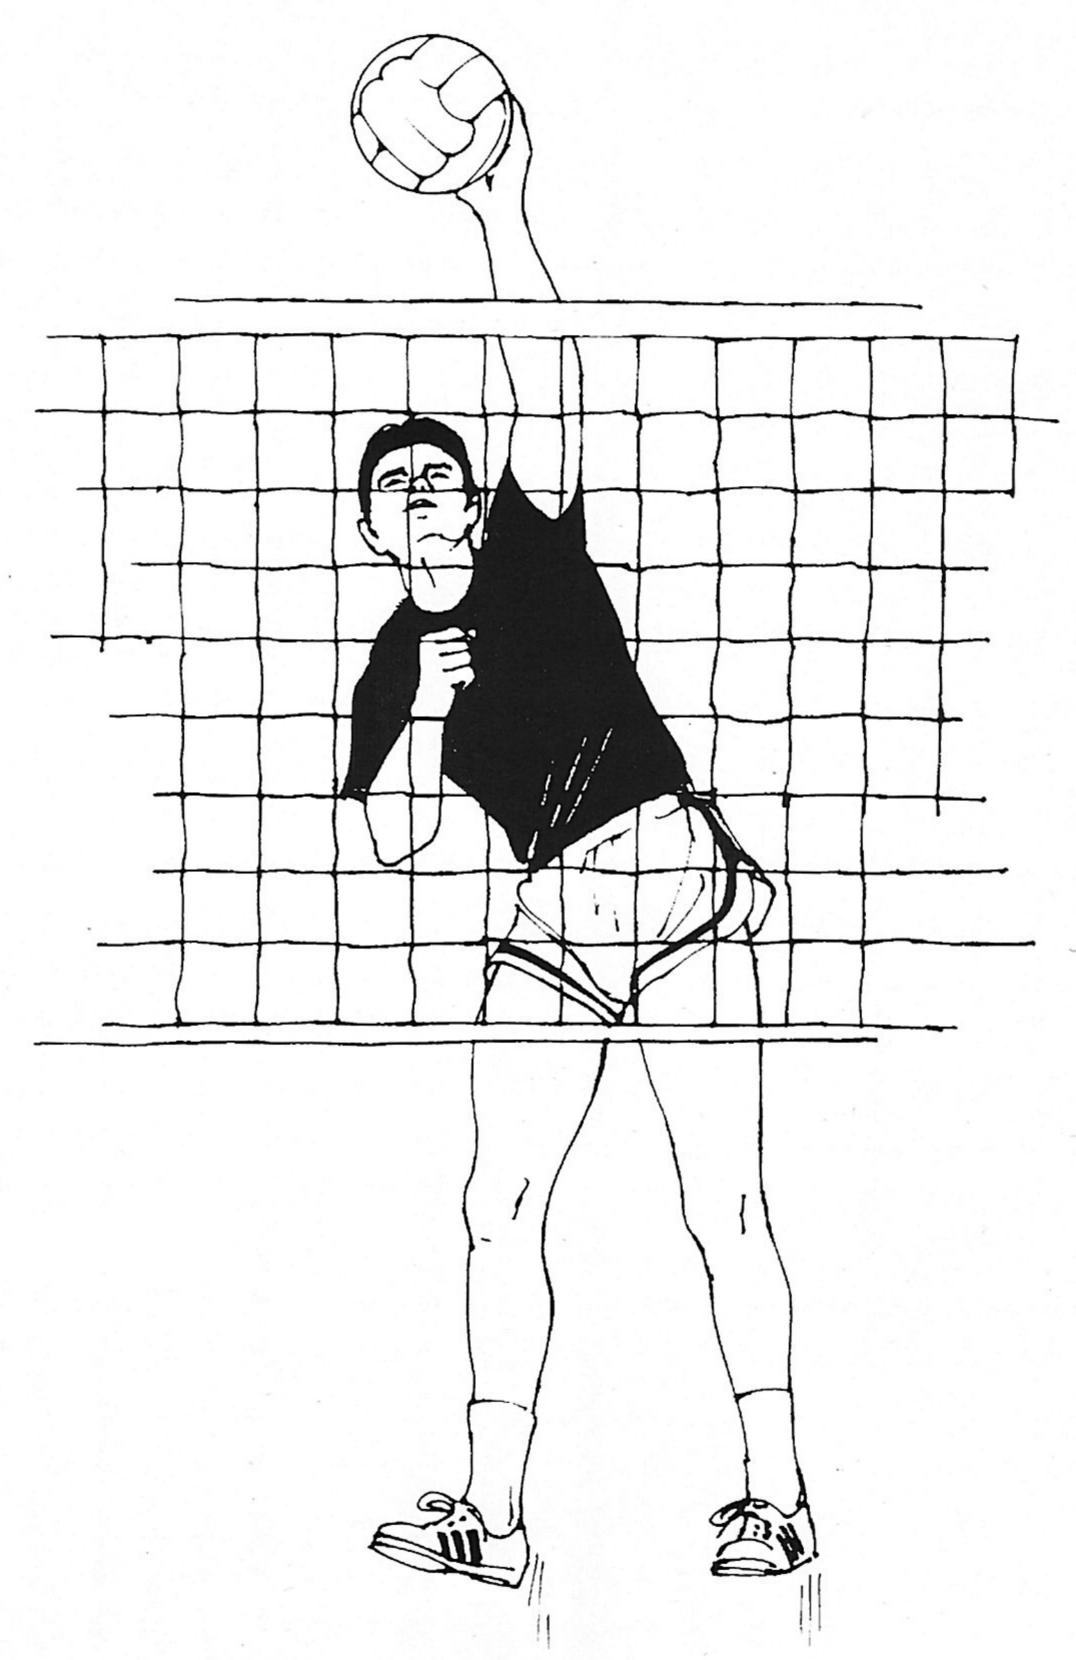

Congratulations Wildcats!

Junior Boys Soccer Team

Earlier this year our Junior boys Soccer team partiticipated in North York's fall soccer season. Having had a successful run in league play our guys went on to compete for and win the North York Junior Soccer Championship. We can expect to see a winning team of seniors in the near future, as these champions work towards a goal greater than athletic achievement. Way to go Wildcats!!!

Westview Athletics The Year in Review

This year so many things were happening the yearbook staff could not be in a million places at once, but for all of you sports fans the Physical Education Department was able to provide us with an overview of the season. Well here goes nothing!

Basketball

Earlier this year, our senior boys basketball team got off to a rocky start, when they were invited to play in the annual tournament at Chinguacousy Park Secondary School in Brampton. Early in the tournament, while Westview was on the court, a heated argument had turned into a violent physical confrontation. The end result was Westview coming out as the bad guy, even thoug our men kept their cool and exhibited the maturity and discipline of adults. After having overcome this hurdle our Senior team went on to compete in the playoffs and placed 3rd in North York overall. Excellent work guys!

Unfortunately our junior boys team didn't fare as well as the seniors in their pursuit for aNorth York title, not much could be said except that our guys did their best to prove that Westview can compete and succeed even if the result isn't a physical one.

Volleyball

With the exception of our Junior boys volleyball team, our other volleyball players didn't do so well this year. Plagued by a series of constant mishaps and close games our ladies and gentlemen pushed on with determination, continually aiming for the gold. Our Ladies of the Court should be congratulated for making it all the way to the North York semi-finals after having a very bumpy season.

Swimming

Westview's water babies managed to place 5th overall at the North York swim finals and 3rd in the novice boys division. With practices starting at 7:00 am and sometimes going until 6:00 pm in the evening, our swimmers deserve to be honoured for their hardwork and commitment to an often exhausting and difficult sport.

Water Polo

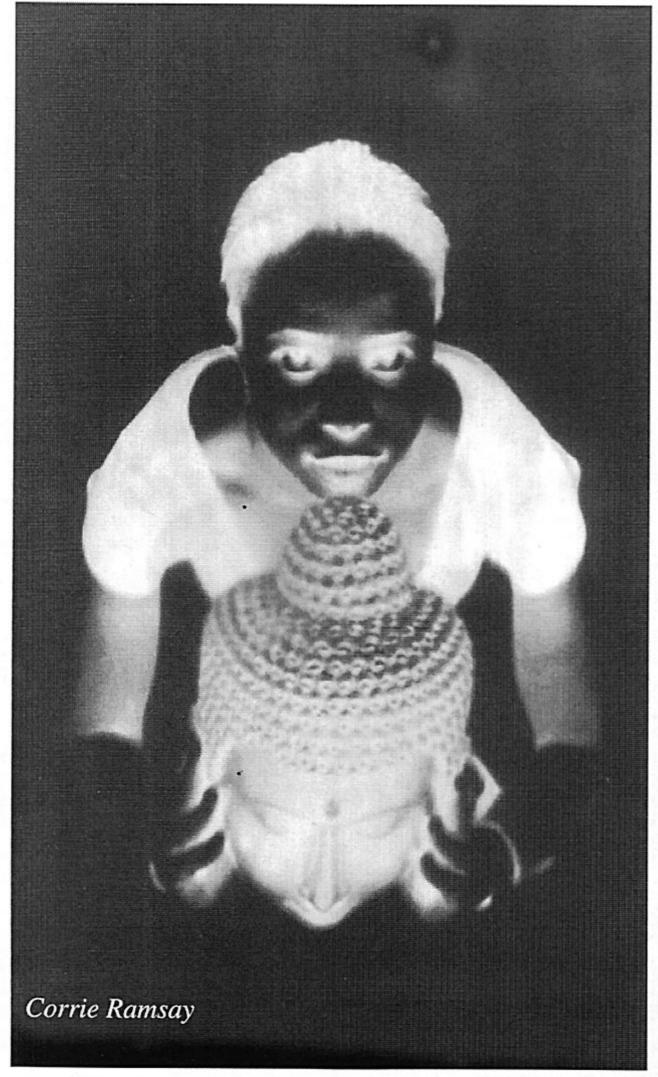

This is the first year Westview has ever had a water polo team. Though our team of polo players placed last in their division, the interest in the sport this year may be a promise of an even stronger team next year.

Tennis

This obscure team managed to have two boys make it all the way to the quarter finals, and one go to the semi finals. Is this a premonition of something even greater to come in highschool tennis next year? We'll keep our eyes on this team next year.

The Photo Gallery.

1994 was the first year that Westview offered a course in photography through the yearbook class.

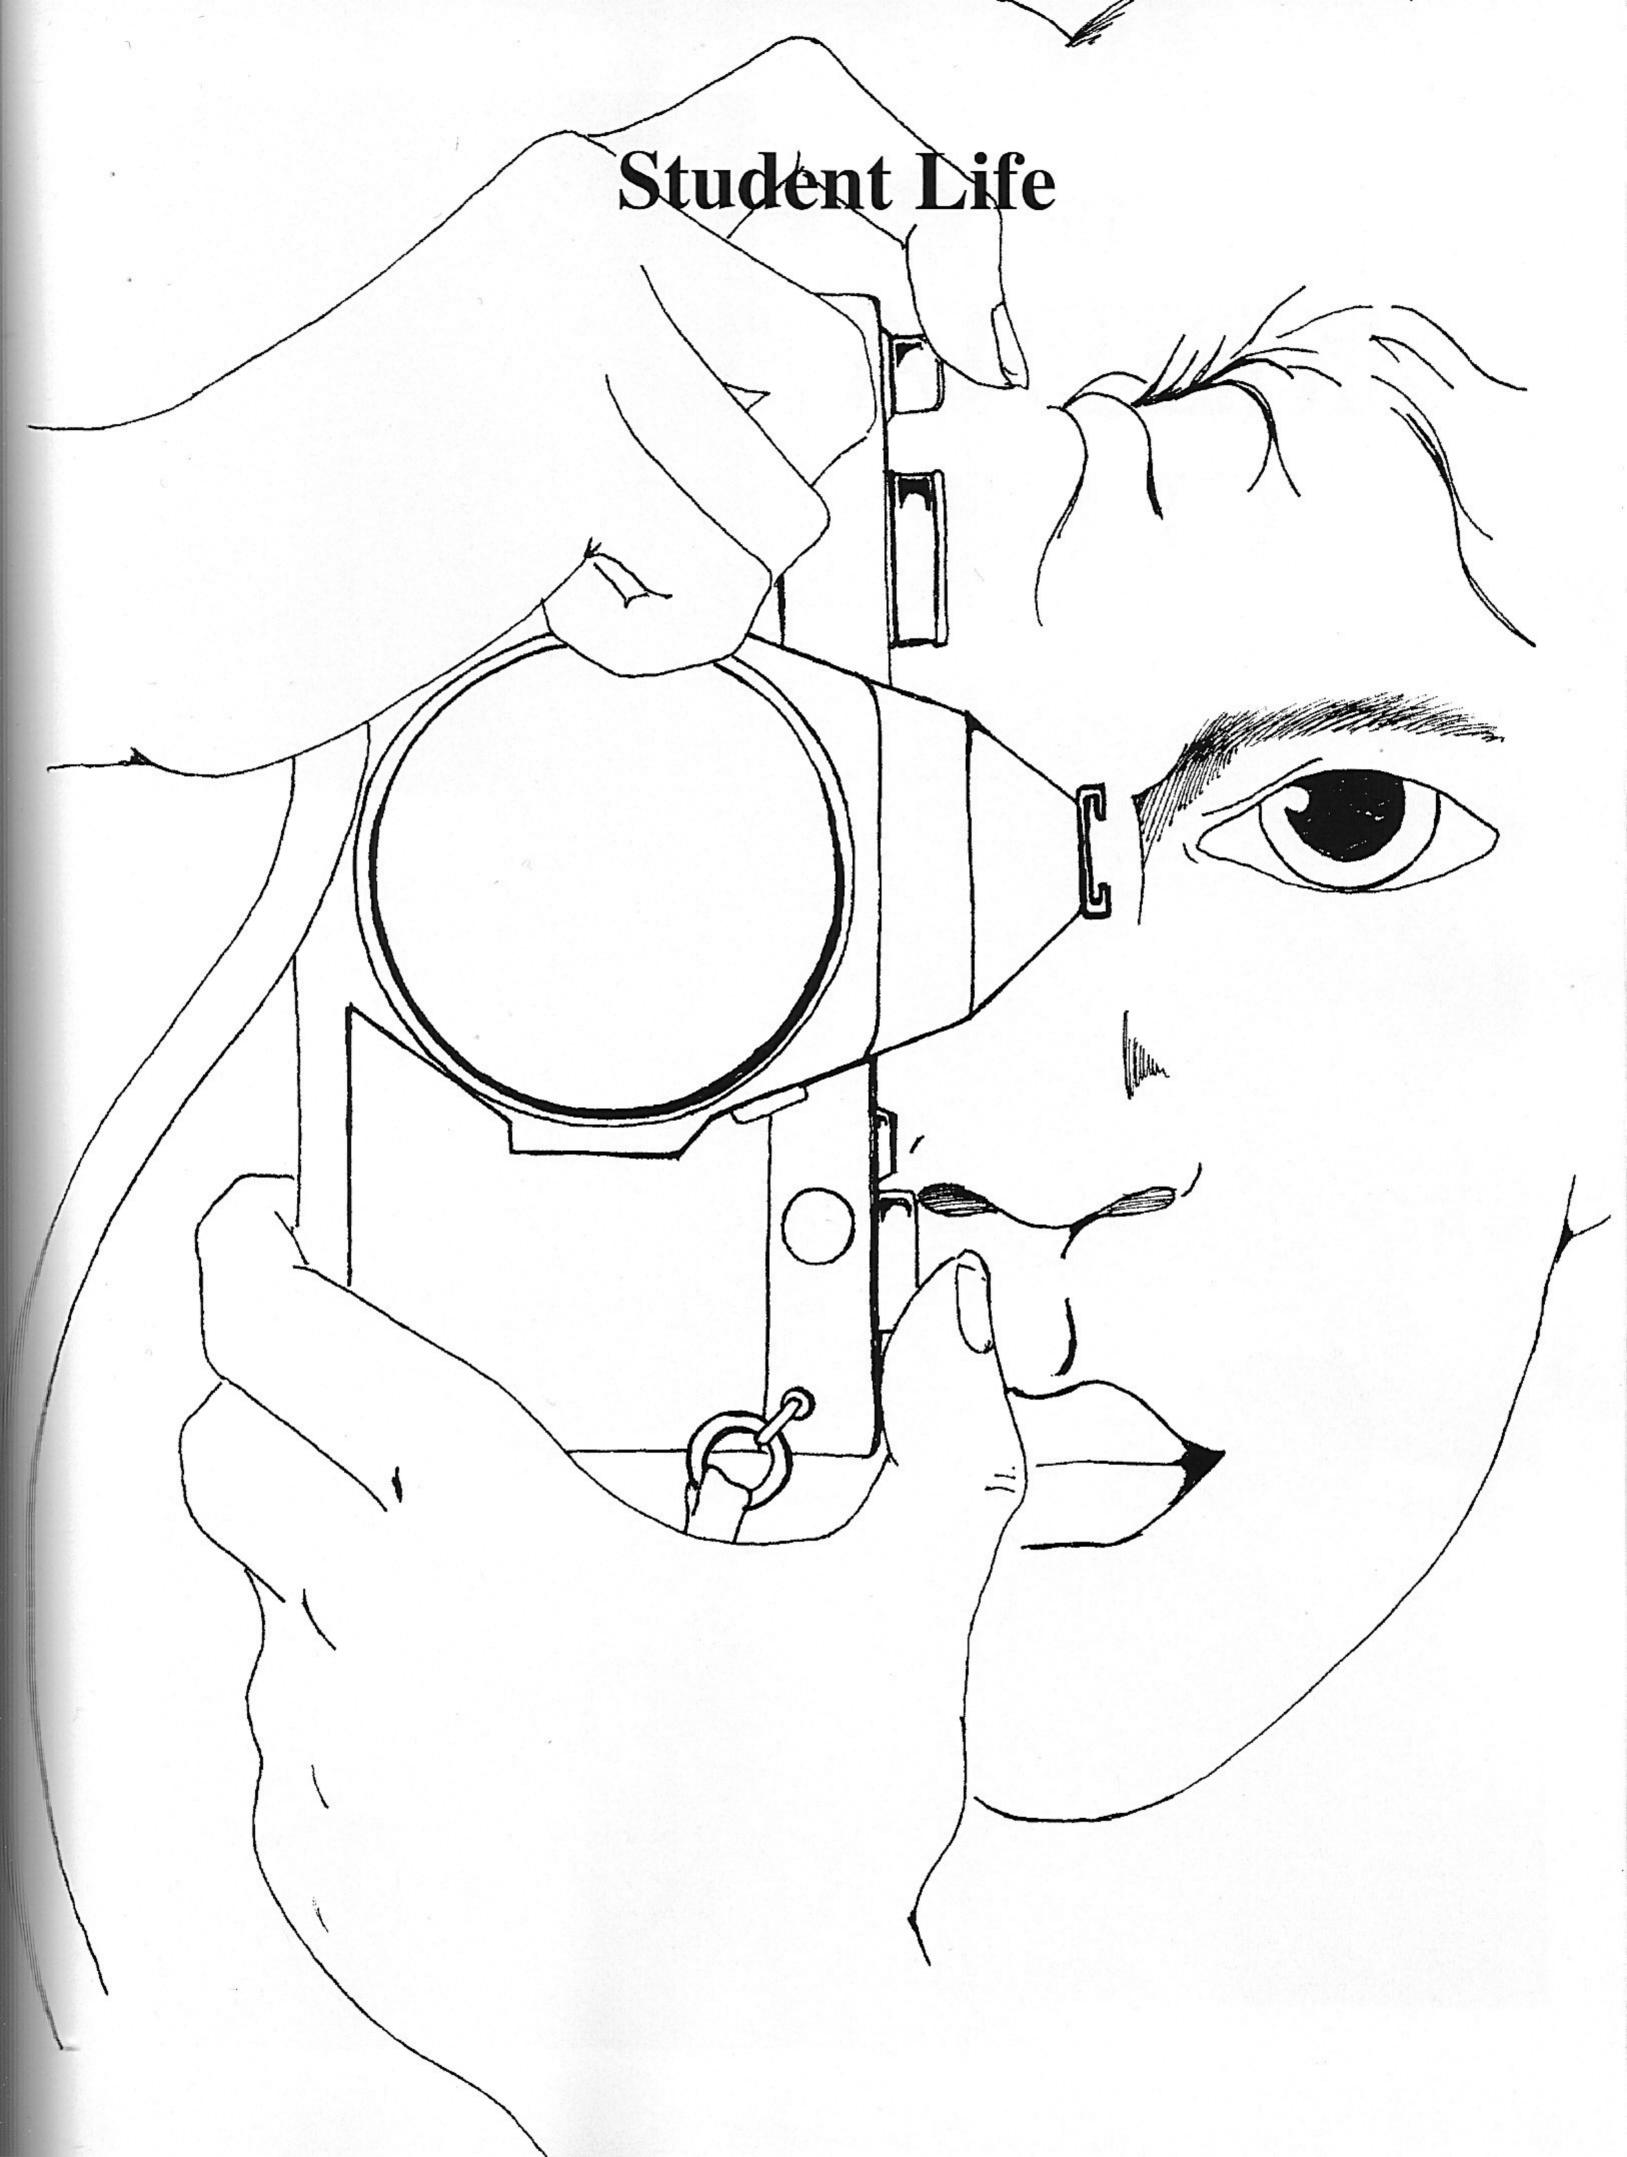

Photography is a form of art that allows you to express yourself through visual images of people, places and objects.

You don't have to be a great painter or a great writer to express yourself, photography provides yet another tool for expression and though it may look easy, it's not.

Here at Westview, we've had to learn how to manage a darkroom, disposal of chemicals and produce a photograph from a negative to a positive. Techniques like dodging, burning, solarizing and ghosting are learned as you develop your skills.

Who says a picture can't be worth a thousand words?

Special thanks to the Midnight Crew who pulled two back-toback all-nighters to finish the book. Go home and get some sleep guys!

To Raised Image,
Thank you for your patience,
your programs, and your
memory. Without you guys,
there wouldn't be a book.
Thank a lot!

Radio Westview

Radio Westview announcers Piragal Thirgananasu, Gail Cornish and Sokha Im provide their voices for the Celebrations of Success.

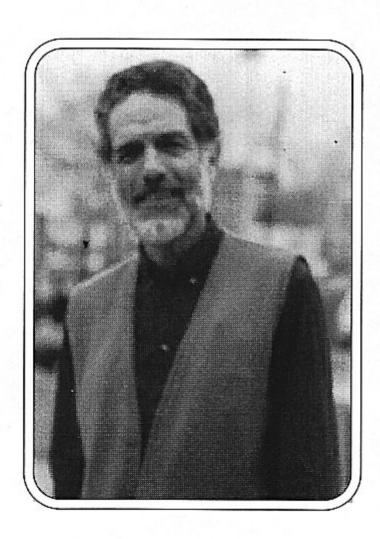

You hear them every morning, at lunch and at the assemblies. They are the voices of Radio Westview. These students provide us with the daily forecast of what's happening in the school

Spanish Students Association

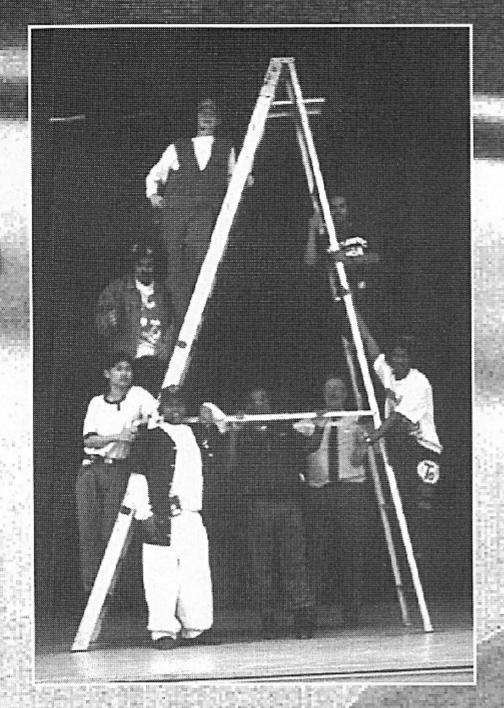

The newly formed Spanish Students Association provides Hispanic students with a small club to meet students of their own cultural group and helps new students in Westview make the adjustment from their home country to here. Headed by Raoul Agosto, it has so far been a success.

"Stage Crew- from top to bottom!"

Stage Crew

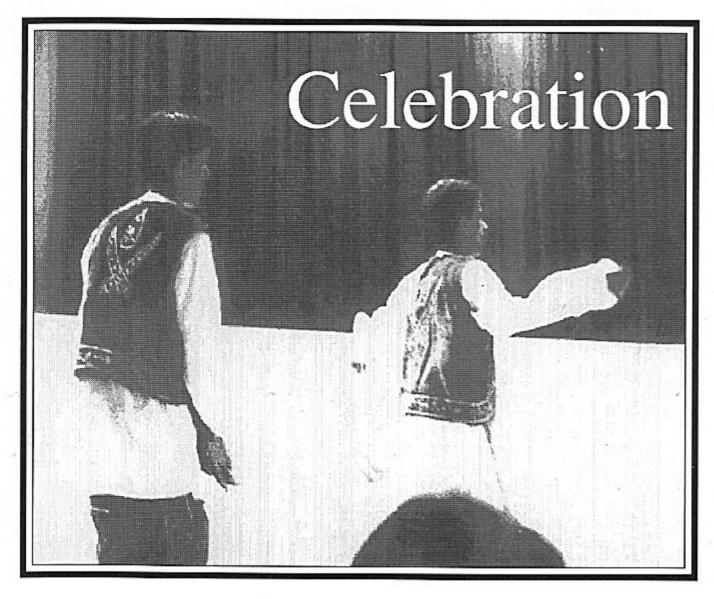

Climbing to great heights, scaling walls, and rising above the rest, these are the guys that kept things going? Commencement, the Celebration of Arts, Celebration of Success and countless other events could not have been a success without them. Engaging in hard work, (it is hard), and team effort, these guys have had their ups and downs, their share of 'technical difficulties', yet through it all they endured, and made our school events memorable. A special thanks goes out to all members. 'The guys that kept things going' are: Mr. Greg Peters, Nanshawn Basant, Anil Persaud, Geoff Richards, Pete Ma, Ravi Ramjoo, Kirk , and George Williams.

"The stage crew's work is never done!"

of Success

The Honours Assembly, traditionally held in the Learning Resources Centre, brought approxialmately 100 award recipients, their parents, and staff members to the evening 'gala' event, Celebration of Success. Among the award winners was Rosemarie Comeau, commended for her effort to save a dying man's life in early February. Recipients of Awards of Excellence in Math, Science, Indo-Pakistani Community, Media, and the Arts, were also commended for their achievements while over 100 students received a commerative Westview Honour Roll 1994 pin in recognition of their academic success. The "Together We Are One" Award, the newest of the lot, was created for the student who exemplified the ultimate goal of the Westview Family of

Schools- to bring all people together in harmony and unity. Congratulations goes out to all award winners for their present success and best wishes for the future. Lest we forget, the night's hightlights included the mesmerising dance performance by the Indo-Pakistani Dancers and the delightful sounds of the String Ensemble. A special thanks to the performers, the staff and stage crew for a memorable celebration of success.

Celebration of the Arts

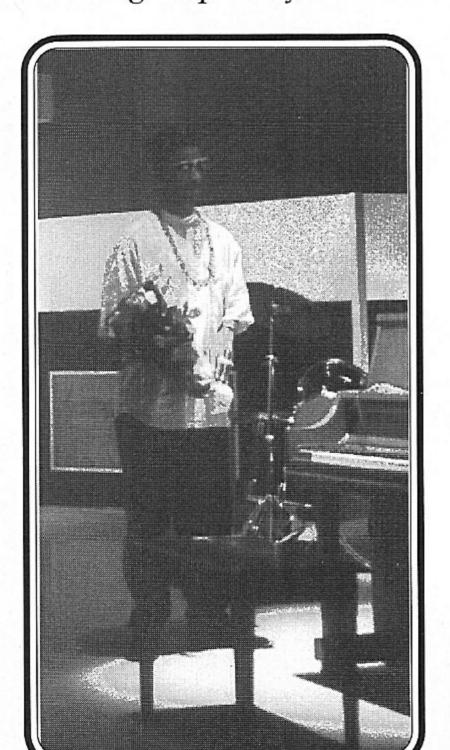

For several months Ms. Yvonne Bush and several other feeder school art teachers headed a choral arts project concentrating on the continued involvement and interest in the arts. On the night of Thursday, May 12, 1994, the Westview Family of Schools and invited guests gathered together at Westview celebrating the success of the Choral Project. The cafetorium was transformed into a unique art gallery displaying the outstanding art work of students from Brookview, Oakdale Park, and Westview. Visual

the outstanding performance of the Brookview-Oakdale trio vocalists. Inspiring and outrageously spectacular, these girls are definitely going places. On a whole, the evening was a success story and is the promise of more Westview Family of Schools celebrations of arts to come.

A Slave's Vision

The sun's eyes follow the curved hills, on which a few of the other slaves are sitting. My thoughts wonder over them like an invisible spary of mist from a calm ocean. My thoughts are not innocent, they are loaded with anger. For a moment I free myself from body and soul and my thoughts hover over the long, green corn fields and the old rusted shingles of the roof of the slave plantation. I raise my eyes and I explore the long dusty cabins. I spit on the ground with disgust as I hear laughter but see no happiness. I wipe my forehead with the roughness of my palm and wipe it carelessly on my filthy cut-off shorts. My mind returns to my body and a group of slaves pass me by as they return from the corn field. Their sweat burns my nose and my eyes fill with tears, I'm not sure if it's the pain of my suffering or the burning smell of sweat. The overseer rides heavenly to the stables, but he is no angel, he's evil with his whip and riding stick. His fat face is no cleaner than a slave's, yet he raises his hands to the first negro who touches the rough, wooden bark of the stable doors.

Visual arts is one of Westview's most popular departments.

Not only does it allow you to express yourself through the use of pencils, paints and various other materials, but each student is encouraged to create art that is reflective of who they are individually and culturally.

Through multicultural literacy and the promotion of anti-racist art, more students are heading toward arts as a means of confirmation of who they are and opening their eyes to each person's history.
